

ABHINASH MADDHESHIYA

B.Tech Student | Software & Web Development | IoT | AI-Powered Applications

Greater Noida, UP, India absmadd@gmail.com +91 8881179002 linkedin.com/in/abhinash-maddheshiya

github.com/abhinashmadd

PROFESSIONAL SUMMARY

B.Tech student with hands-on exposure to Python, C, JavaScript, web development, IoT, and AI concepts. Interested in building practical technology solutions, participating in hackathons, and developing software systems that solve real-world problems.

EDUCATION

Institute / Qualification	Degree / Examination	Percentage / Status
Lloyd Institute of Engineering and Technology, Greater Noida	B.Tech	Currently Pursuing
Class XII (Non-Medical)	12th Grade	63.2%
Class X	10th Grade	72.6%

TECHNICAL SKILLS

Programming Languages: C, Python, JavaScript

Backend & Database: Node.js, MySQL

Version Control: Git, GitHub

Web Technologies: HTML5, CSS3

Libraries: NumPy, Pandas

IoT: IoT Technologies

PROJECTS

AI Chartered Accountants Automation System

Hackathon Finalist

- Worked on an AI-powered automation system designed to simplify and streamline common Chartered Accountant workflows.
- Contributed to a technology-focused solution for automating repetitive accounting-related tasks.
- Project reached the final listing / finalist stage of a hackathon.

Kissan Valley | Online Agricultural Marketplace

- Developed a web-based marketplace concept enabling farmers to list and sell crops at competitive prices.
- Designed a simple process for connecting farmers with buyers across different locations in India.
- Included the concept of finding and purchasing suitable crops from nearby markets.

ACHIEVEMENTS & CERTIFICATIONS

- O Level Certificate:** Successfully completed the NIELIT O Level certification, demonstrating foundational knowledge in computer applications and IT.
- Hackindia AI & Web3 Builders Hackathon 2026:** Participated as a team member; project reached the final listing/finalist stage.
- FET 100 Workshop (IEEE EDS SBC, IIT Roorkee):** Participated in the workshop on field-effect transistor innovation and future intelligent hardware (Sept 9, 2026).
- Introduction to Artificial Intelligence (Simplilearn SkillUp):** Successfully completed the online course (Aug 23, 2026).

AREAS OF INTEREST

Frontend Development Backend Development Web Development

IoT AI-Powered Applications Software Development

PERSONAL STRENGTHS

- Problem Solving & Logical Thinking
- Willingness to Learn New Technologies
- Interest in Practical Technology Solutions
